

## **JOB ANNOUNCEMENT**

### **LANDSCAPE ARCHITECT**

Littlejohn has a position available in our Nashville, Tennessee office for a Landscape Architect that has experience in the planning, design and construction of residential and commercial development projects. The successful candidate will have experience, interest and progressively increasing responsibilities with commercial, institutional, multifamily, and /or residential subdivision planning and design. The candidate will be involved with coordinating client's objectives with municipal guidelines and personnel and coordinating with project team members. Knowledge of design standards, design procedures, milestone delivery criteria for Middle Tennessee communities is a plus.

#### **Requirements:**

The successful candidate will perform a broad range of activities. Responsibilities will include all aspects of design from conceptual storyboarding to production of construction documents. This position offers an excellent opportunity for an individual seeking an increasing level of responsibility.

#### **Skills required:**

Contributes to team success

Proficient in AutoCAD, Adobe Suite, Microsoft Office, Sketch Up and 3D photorealistic rendering

Hand drawing and graphic skills (plan and section/elevation)

Passion for design and the profession

An interest in expanding their Landscape and hardscape design experience

Organized, innovative and ambitious

Strong communication skills

Education Requirements:

Bachelors or Master's degree in Landscape Architecture from an accredited program. Registration and LEED AP a plus along with prior work experience.

Littlejohn offers a competitive compensation package.

If you meet these qualifications and are interested in this position, please reply with a statement of interest and send your resume to [careers@leainc.com](mailto:careers@leainc.com)
