

TRACY WALKER MOIR-McCLEAN Associate Professor Design, Architecture, Urban Landscape		% Time: 100
Education	Master of Architecture, University of Michigan (Cum Laude)	1986
	Bachelor of Science in Architecture, University of Michigan	1981
Registration	Architect: State of Michigan	1988-present
Academic	Associate Professor, University of Tennessee	2007-present
Experience	Inaugural Chair, UTK School of Landscape Architecture (Landscape Architecture Program)	2007-2011
	Associate Professor, University of Tennessee	1998-2007
	Assistant Professor, Tenure Track, University of Tennessee	1991-1997
	Visiting Assistant Professor, Miami University	1990-1991
Professional	Project Architect: Mitchell Associates, Loy Associates Ann Arbor, Michigan	1986-1990
	Project Manager: Charles Vaughan Phippen Associates, Baltimore Maryland	1982-1984
	Designer: National Mainstreet Demonstration Project, Colorado	1981-1982

Creative Work/ Research Focus

My research-creative work investigates architectural artifacts, infrastructures, and alterations that result from interaction between anthropogenic (human) actions, terrestrial systems (climatic, geomorphic, hydric-water, biotic, ecologic). The work is positioned in a neutral ground that recognizes that the relationships between human and co-resident actions, environments, places, and landscapes are complex and mutually influential. This intellectual stance allows me the flexibility to adopt and explore ethical and intellectual positions inflected toward select systems, design professionals, actors in a landscape, or to strive to attain the position of a neutral observer. Corollary to research described above is a search for effective methods to communicate and comment on the temporal expression, evolution and change of actions, processes, and narratives as described in archival records.

While this research is firmly centered in the architectural discipline, it requires adaption of content from allied cultural, scientific, and technical disciplines and a broad range of interdisciplinary collaborations to address aesthetic, phenomenal, theoretical, and applied design/planning applications of these themes. Scales of exploration include architectural project site, buildings, and detail, as well urban, neighborhood, region, and watershed.

My career trajectory of research, teaching, and travel has provided opportunity to explore these themes in a broad range of urbanized, rural, and wild locations on earth. At present, I work with hydrologic infrastructure landscapes with a strong focus on Tennessee Valley Authority projects constructed in the upper watershed (eastern) including the Norris Dam and its surrounding land reservation.

RESEARCH CREATIVE/WORK CURRENT & RECENT INVESTIGATIONS

TVA DAM RESERVATIONS, CONSTRUCTION LANDSCAPES and multi-objective planning process

TVA: Before During and After, A Legacy of Landscape Transformation in East Tennessee. <i>Lead Primary Investigator</i>	current
TVA: Digital Visualization of TVA infrastructure projects in East Tennessee -Research Group. <i>Lead Primary Investigator</i>	current
Context Analysis Methods to support Integration of Landscape, Planning and Design	current
Watts Bar Resort, Reservation and Reservoir.	current

(3) investigations (\$15,720) *Lead Primary Investigator*

sponsor Southeast Tennessee Development District (SETTD)– Smart Communities Initiative (SCI)	
Watts Bar Resort, Envisioning Contemporary Recreational Use Watts Bar Resort <i>Sponsored Research Studio</i>	2016
TVA Rail to Historic Trail, Supporting a Regional Recreation Destination. Update to reflect progress	2016
TVA Rail to Historic Trail, Supporting a Regional Recreation Destination	2016
Watts Bar Reservoir Bike & Blueway Circle Tour, Supporting a Regional Recreation Destination	2016

TVA Land Planning and Housing Division; A Legacy of Planning in East Tennessee <i>Lead Primary Investigator</i>	2013-2014
---	-----------

EAST TENNESSEE REGION and PlanET

East Tennessee Regional Greenway Corridor Guide (\$45,000) <i>Lead Primary Investigator</i>	2013-2014
PlanET Studio. Study of 5 East TN Greenway Corridors <i>Sponsored Research Studio</i>	2013-2014

RESEARCH CREATIVE/WORK CURRENT & RECENT INVESTIGATIONS continued

UTK CAMPUS	2013
UTK Campus Streetscape & Lighting Proposals: Phil Fulmer Way and the lower Athletic District	
UTK Campus Pedestrian Bridge Lighting proposal investigation: investigative assistant Julle Oksanen	2013
Design Competition: EPA Rainworks Challenge: The Greening of UTK Parking Lot 9	2012
Regional plant palette for UTK Campus, Greening of Lot 9 Parking Garage Investigation	2012

CENTER-CITY KNOXVILLE	2009-2011
Knoxville, TN. Center-City Park and Greenway Routes (\$5,000) <i>Sponsored Research Studio</i>	
Surface Stormwater City Block analysis method, Ft Sanders Neighborhood, P. Zawarus	2009
Undergraduate Research Grant: Boulder Bike Network, Samuel Mortimer (\$3,000)	2008
Green Public Space + Integrated Transit in the South Knoxville Waterfront Plan, <i>Research Studio</i>	2006
Graduate Research Grant: Stormwater Calculator for Urban Neighborhoods, Cassius Moter (\$3,000)	2003

RESEARCH GRANT AWARDS

Watts Bar Resort, Reservation and Reservoir. (\$31,000) <i>Lead Primary Investigator</i>	2022
sponsor Volunteer electric Cooperative proposal for Report update -solicited 2022	pending
TVA Rail to Historic Trail, Supporting a Regional Recreation Destination. Update of Report	
TVA visualization project: The Norris Project, Before During and After, 1931-1941. (\$3716) <i>Lead Primary Investigator</i>	2018
Southeast Tennessee Development District (SETTD) Smart Communities Initiative (SCI)– (\$15,720) <i>Lead Primary Investigator</i> for 3 associated investigations	2016
Watts Bar Resort, Envisioning Contemporary Recreational Use Watts Bar Resort <i>Sponsored Research Studio</i>	2016
TVA Rail to Historic Trail, Supporting a Regional Recreation Destination	2016
Watts Bar Reservoir Bike & Blueway Circle Tour, Supporting a Regional Recreation Destination	2016
East Tennessee Regional Greenway Corridor Guide (\$45,000) <i>Lead Primary Investigator</i>	2013
Knoxville Center City Recreation and Greenway routes - HT Hackney Co. <i>Sponsored Research Studios</i> (\$5,000)	2009-2011
UTK SARIF Summer Graduate Research Assistantship (\$3,000) Samuel Mortimer <i>Boulder Colorado Bike Network analysis</i>	2008
Copper Development Association, 425 detail course materials grant: copper (estimate value \$3000)	2008
Patterns of Green Infrastructure: tools for urban design (BSA- \$10,000)	2006
Beaver Creek Watershed Green Infrastructure Plan (\$41,000)	2005
DeLozier Farm Maryville TN, sustainable residential development visions <i>Sponsored Research Studio</i> (\$8,000)	2005-2006
ITC Teaching with Technology, Learning Module Development, Arizona Power Supply House (\$15,000)	2004
UTK SARIF Exhibit, Performance, and Publication Expense Fund (\$2,000), (\$1,500)	2004
UTK SARIF Summer Graduate Research Assistantship, Cassius Moter (\$3,000)	2003
Chattanooga Ecological Systems Plan for Downtown, Green Center (\$9,999)	2002-3
ITC/CUE Faculty Development Grant	2000
Teaching with Technology Summer Institute	2000
UTK SARIF Exhibit, Performance, and Publication Expense Fund	1996
ACSA Jr Faculty Initiative Award: <i>Summer Rain Place</i> (\$4,500 Graham Foundation) (\$1,000 Reagan Fund)	1992
Study award and published monograph on the project.	
Univ. of Michigan Thesis Support Grant	1985
