## SKILLS

---

- General 3D modeling, sculpting and rendering in Blender and Maya
- Extensive Experience with Adobe Creative Cloud software
- Experience building models and shaders optimized for real-time rendering (i.e. MIP Maps, LOD groups, occlusion culling, lightmap baking, etc)
- UV mapping, PBR and procedural texturing
- 3D and 2D keyframe animation
- Modeling for manifold objects
- Experience developing for virtual reality (Oculus Rift and Samsung Gear VR) in Unity
- Experience working with simulations (i.e. particle systems, fire and smoke simulations, water and other volumetric simulations)
- Video editing, compositing and visual effect
- Some audio editing experience
- Designing for web, including knowledge of HTML and CSS
