Community Engagement Projects

Tennessee RiverLine Partnership, Director (2017-Present)

Strategic leadership and creative direction for a full-time team and consortium of local, state and federal stakeholders to study concept development and implementation of the Tennessee RiverLine, a vision for a continuous system of paddling, hiking and biking experiences along the Tennessee River's 652-mile reach from Knoxville, TN, to Paducah, KY. A product of the Tennessee River Project and LAR 553 (Fall 2016), this transformative vision is simultaneously a place of recreation, an idea to cultivate a generations of river stewards through unprecedented public access, and a strategy to catalyze economic development, healthy lifestyles, equity of access to river experiences and ecological citizenship. UT students serve as a creative engine and staff support to the initiative both in and outside of the classroom.

Tennessee River Project Director (2016-Present)

A multi-year teaching, research and outreach initiative in partnership with the College of Architecture and Design's Governor's Chair for Energy and Urbanism. Launched in Fall 2016, the River Project's mission is to gain an understanding of the Tennessee River system's contemporary grand challenges and contemplate speculative, visionary, and collaborative planning and design proposals that promote economic prosperity, social health and environmental resiliency, maintaining Valley's legacy of leadership and innovation into the next century.

UT Environmental Design Lab Project Manager (2014-Present)

UTK's Environmental Design Lab (EDL) builds on the interdisciplinary partnership at the core of the School of Landscape Architecture in order to extend the reach of the school beyond the classroom and into the community and region. Utilizing the full range of faculty, facilities, and resources available to the school across the University of Tennessee's campus, the EDL is an adaptive design center that brings the unique and contemporary talents of faculty and students to bear on landscapes questions of all scales, contexts and programs

Summer 2014 – Landscape Architecture Foundation (LAF) Case Study Investigations

Spring-Summer 2015 – City of Cleveland, TN Woolen Mill Branch Greenway Extension and Flood Mitigation Plan

Spring-Fall 2015 – City of Cleveland, TN Inman Street Redevelopment Plan

Summer 2015 – City of Cleveland, TN Taylor Springs Park Concept

Summer-Fall 2015 – UT Green Infrastructure Projects, Claxton and BESS Rain Garden Design + Build

2016-2017 – HydroLIT: southeast tennessee water quality playbook

Fall 2016 – EPA Campus Rainworks Challenge Competition Entry: H[20]ARVEST for all Seasons on the UT Agriculture Campus

Spring 2018-Present – Knoxville Riverfront/Neyland Corridor Road Diet Study in collaboration with UT Civil Engineering

University of Tennessee Smart Communities Initiative (2014-2018)

Planning Committee member and faculty participant. The Smart Communities Initiative (SCI) is an interdisciplinary program that partners faculty and students across campus with cities, counties, special districts, and other municipal groups to engage in real-world problem solving aimed at increasing the level of economic viability, environmental sustainability, and social integrity of the region.

LAR 553 – Fall '15 – Brownfield redevelopment and urban revitalization plan, Cleveland, TN

LAR 500 – Spring '16 – Woolen Mill Branch Greenway Extension and Flood Mitigation Plan, Cleveland, TN

LAR 553 – Fall '16 – Southeast Tennessee Water Quality Improvement Plan, Chattanooga, TN

Odd Fellows Cemetery and Potter's Field Rehabilitation Project (2012-2018)

Principal Investigator: Katherine Ambroziak, Assistant Professor, University of Tennessee College of Architecture and Design

Contributing ongoing concept and design development assistance, mentoring multi-disciplinary student participants, and serving as instructor for independent study course work to enhance site design, landscape performance, and water management aspects of this project

Plan East Tennessee (PlanET) Landscape Architecture Program Coordinator (2011-2014)

Program coordinator for \$1million leveraged resource agreement to City of Knoxville HUD grant. Assessment of growth and planning challenges in five-county region, ideation and execution of LAR studios to develop demonstration projects for sustainable regional growth;

LAR 545, Fall '11 – Water resource stewardship through integrated site design, Knox County, TN

LAR 545 Fall '12 – Grayfield redevelopment as a growth alternative to sprawl, Vision Plans for Oak Ridge and Maryville/Alcoa, TN

LAR 543+545 Fall '13 – Growth planning and economic development in gateway communities, Vision Plans for Highway Corridors in Norris and Townsend, TN
